PRATHAMESH PAWAR

prathameshpawar932004@gmail.com | +91-8788426476 | github.com/Prathamesh0903

Brief Summary

I am Prathamesh Pawar, MERN stack developer with Knowledge in Java, C, JavaScript, React, Node.js, Express.js, MongoDB, MySQL, and Data Structures & Algorithms. With a good foundation in full-stack development, I am actively building and scaling atmamii.com, demonstrating my ability to create scalable applications. Passionate about problem-solving and efficient coding, I am dedicated to crafting innovative web solutions and optimizing system performance.

Education

D. Y. Patil College Of Engineering & Technology, Kolhapur   **2022 - 2026**
- Computer Science and Engineering | CGPA: **8.01**

L.S.K Yashoda College Of Arts, Commerce And Science, Satara   **2020 - 2022**
- *HSC (Class XII), Percentage: 74.33%*

K.S.D Shanbhag Vidyalaya , Satara   **2019 - 2020**
- *SSC (Class X), Percentage: 84.60%*

Skills

Java | Python |React JS | JavaScript | NodeJS | Express | Next JS | API | MongoDB | MySQL | Problem Solving | Github

Projects

Atmamii Industries   **Nov 2024**
Project Link: atmamii.com

Atmamii Industries is a consultancy platform designed to support startup companies by offering tailored services and essential resources. The website is built using HTML, CSS, JavaScript, and Bootstrap, ensuring a user-friendly, and visually appealing experience.
- Expert business guidance for early-stage startups.
- Structured mentorship programs.
- Networking opportunities with industry professionals.
- Clean and modern web designs.

Bug Tracker   **June 2025**
Project-Link: https://bug-tracker-mu-lilac.vercel.app/

Developed a Jira-like project management tool using React and Bootstrap for the frontend and Node.js for the backend, featuring Firebase Authentication for secure user access. Implemented core functionalities such as creating, editing, and updating projects, managing team members, and tracking tickets with a drag-and-drop interface using @hello-pangea/dnd for seamless task status updates. Designed an intuitive UI for efficient project tracking, enhancing team collaboration and workflow management.

Full-Stack Trading Platform   **Feb 2025**

Developed a full-stack trading platform inspired by Zerodha using the MERN stack. The application features real-time stock data display, portfolio management, and trade execution functionalities.
- Designed and implemented a **RESTful backend** with **Node.js** and **Express.js** to handle data management and used **Firebase** for user authentication.
- Built a interactive frontend using **React.js** and **Bootstrap**, ensuring seamless usability across devices.
- Integrated **Jest** for unit and integration testing to ensure system reliability, accuracy of trading logic, and performance stability.
